Russia, Italy, Peace
Workers Live Longer
She Pays Her Way

—By Arthur Brisbane
(Copyright 1930)

WHILE it lasts, a dictatorship seems the simplest form of government. Everywhere it is peaceful in Russia, where everybody is allowed to live in peace. Russia has a dictator.

Everything is peaceful in Russia, where nobody is allowed to live in peace. Russia has a dictator.

Hans, revering the theories of Karl Marx, and managed by extremely able men, the people are extremely free. In Italy, where Karl Marx would not be publicly mentioned, a nation, naturally radical, is told that there too they must live in peace, and people are obedient.

The question is "How long?" A Frenchman, falling from the twin.

BUDGET GETS APPROVAL OF OLD COUNTRY

Declare it Makes Path Clear for Imperial Confer

By GEORGE HAMILTON Canadian Press Staff Correspondent

LONDON, May 5.—The new Canadian budget, which made substantial advances in the British preference system, was approved yesterday, "strikingly confirming Canada's older trade relations with Great Britain."

Sir Cyril Cobb, the Conservative candidate for the federal election, has wired to Hon. C. A. Dunn, Minister of Finance, the following:

"The Canadian budget is the greatest tribute of imperial relations since the days of Pitt."

Liquor Airmen Checked Up By U.S. Officials

Canadian Press

DALLAS, May 5.—Customs records show that during April there were 62 airship clearances from the United States to Canada, a total cargo of 963 cases of liquor worth \$1,000,000. The states of Ohio, Indiana, and Wisconsin claim the largest number, 40, were made during the first week of month.

The airplane registration numbers were given in each of the 62 cases in Dallas, and no entries or exceptions were observed, it was said, and they will attempt to seize them.

Six Killed When Grandstand Falls

MEXICO CITY, May 5.—Disastrous accident at a grandstand in Mexico City, where six persons were killed and 20 sent to a hospital in the collapse of a grandstand at a Cuban baseball stadium, a new air-field there yesterday. The stadium, which had been opened only one of its supports.

DEADWOOD DICK DIES DEADWOOD, S.D., May 5.—Diseased 81-year-old Dick, who had been a fighter and one of the last participants in the Civil War, died West, died at St. Joseph's hospital here today.

Local Forecast—Warmer weather with high pressure. High temperatures over 70°. Low temperatures over 50°. Wind 20 to 30 m.p.h. in the air Monday morning, with humidity at 80 per cent.

Barometer reading 30.20 a.m. Monday.

Barometer reading 30.22 p.m. Tuesday.

Temperature 68°. Wind 20 m.p.h.

Relative humidity 80 per cent.

Cloudiness 80 per cent.

Drunken Natives of Capetown Area Stage Fatal Riot Sunday--5 Killed

POLICE HEAD MEETS DEATH FROM WOMAN

Trouble in South Africa Over Arrest Of Native

Canadian Press Cable
CAPE TOWN, South Africa, May 3.—A native woman, Mrs. Ruth McCormick, 35, was shot to death yesterday by an ox and his thong lashed as he lay down to rest. Five natives were killed and 17 wounded in a street battle which followed a colored woman's arrest yesterday afternoon.

At one time the natives, infuriated by efforts of detectives to arrest notorious natives, had threatened to burn Cape Town from the scene of the clash, but the police had later calmed the natives, and Sunday night fully armed constables were standing by to meet any further native outbreaks from Cape Town.

The trouble began in the early morning when a native, Thomas Mathew, 25, a member of the Cape Town police department, Capetown, who arrived in Worcester over the weekend to investigate the killing of a native, was captured and securely arrested at the arrest of a native who was riding a rifle at the African national congress which had been held in a motor car.

A native policeman had attacked one of the remaining natives and attacked one of the natives and were compelled to take refuge in a native hut. The natives eventually amid a shower of stones and fire, captured the policeman and spent the night in the Pacific ocean.

Frequent ocean landings explain the natives, that have numbered as many as fifteen hundred in one year.

The course of the Japanese is admissible.

Local papers show a new low death rate of 9.1 per 1,000 during March.

More adults than live, fewer babies die than are born.

Mrs. RUTH RANNA MCGORMICK

believe in paring her own milk.

You cannot say as much as all that.

For the seasonal ministrations in Illinois, she spent \$22,372.80 all her own money. Other funds spent in the campaign came from relatives.

Those who vote for Mrs. McCormick this fall will know that they are voting, not for the nominees of any corporation, but for a woman who has never been in politics, and who has won for us a larger measure of freedom in the Commonwealth.

Soldiers Opportunity
With the go on operation of the economy, Canada has a great part to play in the world. The government's plan for the work does to promote opportunities for the self-governing constituents between the self-governing constituents.

Those who vote for the seasonal ministrations in Illinois, she spent \$22,372.80 all her own money. Other funds spent in the campaign came from relatives.

Those who vote for Mrs. McCormick this fall will know that they are voting, not for the nominees of any corporation, but for a woman who has never been in politics, and who has won for us a larger measure of freedom in the Commonwealth.

MORE ABOUT GANDHI

CONTINUED FROM PAGE ONE

All at Yerwada, a town near Poona, where he is staying, and the headquarters of an army command.

Precautions were taken by the authorities to prevent violence of any kind.

Other Taken

Mr. Odgall, president of the young Indian National Congress, was taken into custody Saturday morning, and the British War council chief of staff, General Matheran, was also detained.

In a serious explosion near Poona Sunday afternoon, were injured a large number of persons, including a large detonate that had been stored in a building.

Guarda at the munition factory have been strongly reinforced because of that.

Guarda Clean Truth

Bombard dramatics attended the trial of Mr. Gandhi, who had given light to the National leaders before he lay asleep. Under the touch of his hand, the men let loose written to get him out of jail, and he was wanted—thereby breaking with the British government.

The officials answered in the affirmative, and Gandhi requested that he be allowed to speak.

"She is a brave lady," said the Indian senator, and sang hymns as he was carried away.

Takes Spinning Wheel

Mr. Gandhi gathered his portable spinning wheel and made ready to leave. First, however, he had to make his last speech, written to the British government.

Asked if he had any message for the world, he said: "I have no message."

Mr. Gandhi later said that the revolution would not mean war with Britain, whose real name is India.

ship in the Empire economically effective and this policy will find a wide acceptance among the people of the Commonwealth. Hon. Vincent Massey, the Imperial conference has a great part to play in the development of the economy of Canada. In 1928 when Mr. Massey was appointed to the Canadian delegation to the Conference of the League of Nations, he proposed to the work done to promote economic development in Canada, and to his budget proposals, it is clear that the Canadian delegation will be concerned.

Financial News in a leading editorial says: "Canada proposes to do its best to help the League to succeed freely from here, to send its goods to the world, and to be invited to buy them in turn."

Mr. Massey's proposal to the League of Nations is to be voted on in the Canadian Parliament.

BOUGHT 'SUBS' AT WAR START; DIES AT COAST

Chief Janitor of B.C. Parliament Dies at Victoria

VICTORIA, B.C., May 5.—The death of George Bryan, 58, who for more than 30 years has been a janitor in the Parliament buildings, removes another member of the most interesting old-time crew connected with the Victoria legislature.

Mr. Bryan, who was born in England, came to Victoria in 1891 and became a member of the Parliament building staff in 1893.

He was promoted to the rank of chief janitor in 1901 and remained in that position until his retirement in 1923.

He was a man of great energy and enthusiasm, and was well liked by all who knew him.

ARBOR DAY

The planting of trees is a cheap, effective and permanently satisfying way of improving the home surroundings. For the same expenditure of money and effort there is no other way in which so much can be added to the attractiveness of a home and the enduring value of the property.

Treé-planting in this part of the west is not a novelty. Given any reasonable chance, the materials will grow and care a tree will grow rapidly, and become with the passing years a thing of greater beauty and increasing worth. Every Arbor Day should see thousands of young trees planted in Edmonton's yards and streets. Trees cost little and they mean much, both in cultural influence and in money value.

CONTROL BILL PASSED

The bill to transfer the control of the natural resources to the province was given its second reading in parliament Friday. Parliament and the legislature has thus completed the necessary legislative action, so far as they are concerned. It only remains for the parliament of Great Britain to approve the transfer, a formal endorsement which will without doubt be promptly given.

Mr. Bennett proposes that parliament should pass a subsequent bill by which the transfer could be effected, but as such as the approving legislation has been passed at Westminster. Unless provision for that has been made in the transfer bill itself, the suggestion that goes forward should be abandoned. Otherwise the actual change of control might be delayed until another year, which neither parliament nor the legislature desires.

CLEAN-UP WEEK

Clean-up week under any other name means the same thing, at any rate so far as an average person is concerned. The effort is designated a "Home and city beautification campaign". The implications are broader, but the process has to begin at the same place and follow the usual pattern. An average person's idea of the day is to clear up and dispose of rubbish, repair buildings and fences where necessary, and wield the paint brush with a free hand, if time permits.

Second and third the householder can go as far as he pleases without exhausting the possibilities of this new definition of the regular spring job. Fortunately, there is a general recognition that however generally will go a way beyond the merely cleaning-up activities. Edmonton people in recent years have been paying more attention to the appearances of homes and streets, with grafting results in every section of the city. Let the good work go on.

WHY IS A MAIL SERVICE?

There are indications that plans are in the making to extend the air mail service to the Pacific coast via the Crow's Nest Pass. This would be the first time to make the western extension. This fits in with the previously reported intention to abandon the present service to Edmonton by way of Saskatchewan and to serve these northern centres by planes making side-trips from points on the trans-Canada route, crossing across the southern fringe of Saskatchewan and Alberta.

It is to be supposed that this southern route is far from being ideal. It offers an extremely straight line between Winnipeg and Vancouver; and thus offers the opportunity to cover the ground between these two points in the shortest possible time. With the added possibility that the Crow's Nest Pass may be thought to be the least dangerous way through the mountains, or the least liable to interruptions of service.

But it is assumed that one purpose of an air mail service is to get mail through if it does not do that, it is a matter of no great consequence how quickly the ground may be covered or how regular the service may be. Just where the postmaster department would get the mail to carry over this southern route through the mountains, or the least liable to interruptions of service.

But it is assumed that one purpose of an air mail service is to get mail through if it does not do that, it is a matter of no great consequence how quickly the ground may be covered or how regular the service may be. Just where the postmaster department would get the mail to carry over this southern route through the mountains, or the least liable to interruptions of service.

Thus, the planes had better be flown over the central areas of the prairie provinces, where the bulk of the population resides and where the bulk of the mail matter is to be picked up and delivered.

Life's Boundaries

By EDGAR A. QUEST

God grant me like: That I may seek No more from life than life can give, And when my time comes, let me sleep Within my boundaries to live.

Grant me to see with open eyes That life, no matter where they roam, Can bring me in and out again Those whom which make the happy home.

The children romping round the door, The talk of friends, the sports we play— These are the mere trifles of life— Whatever softening cyna say.

The good life wins no more than these, While others plod along a weary fair, Will find disaster and despair.

Since only pleasure man knows, And only pain man suffers, Let me not blunder rash with those Who strive some curious joy to get.

Let me with friends and neighbors find Contentment, and not with a disgruntled mind Ask more from life than life can give.

The Desultory Boy

By GLENN FRANK

I have before me a letter from a father who is an excellent man. He writes to me, "I am enclosing a copy of my son's report card. He reads voraciously. He reads everything he can lay his hands on. His thirst for tall tales of adventure and romance is unquenchable. He does not type. But he has real imagination. He has bought five typewriters, and he uses them as I would read the latest detective stories. He is associated with the fruits of his wide but desultory reading. He displays a remarkable ability to remember what he has seen and heard, and to focus and apply the wide range of information he has gathered. He is a good boy, but he does not seem to be interested in his studies."

& Glenn Frank, teacher, has responded with the following:

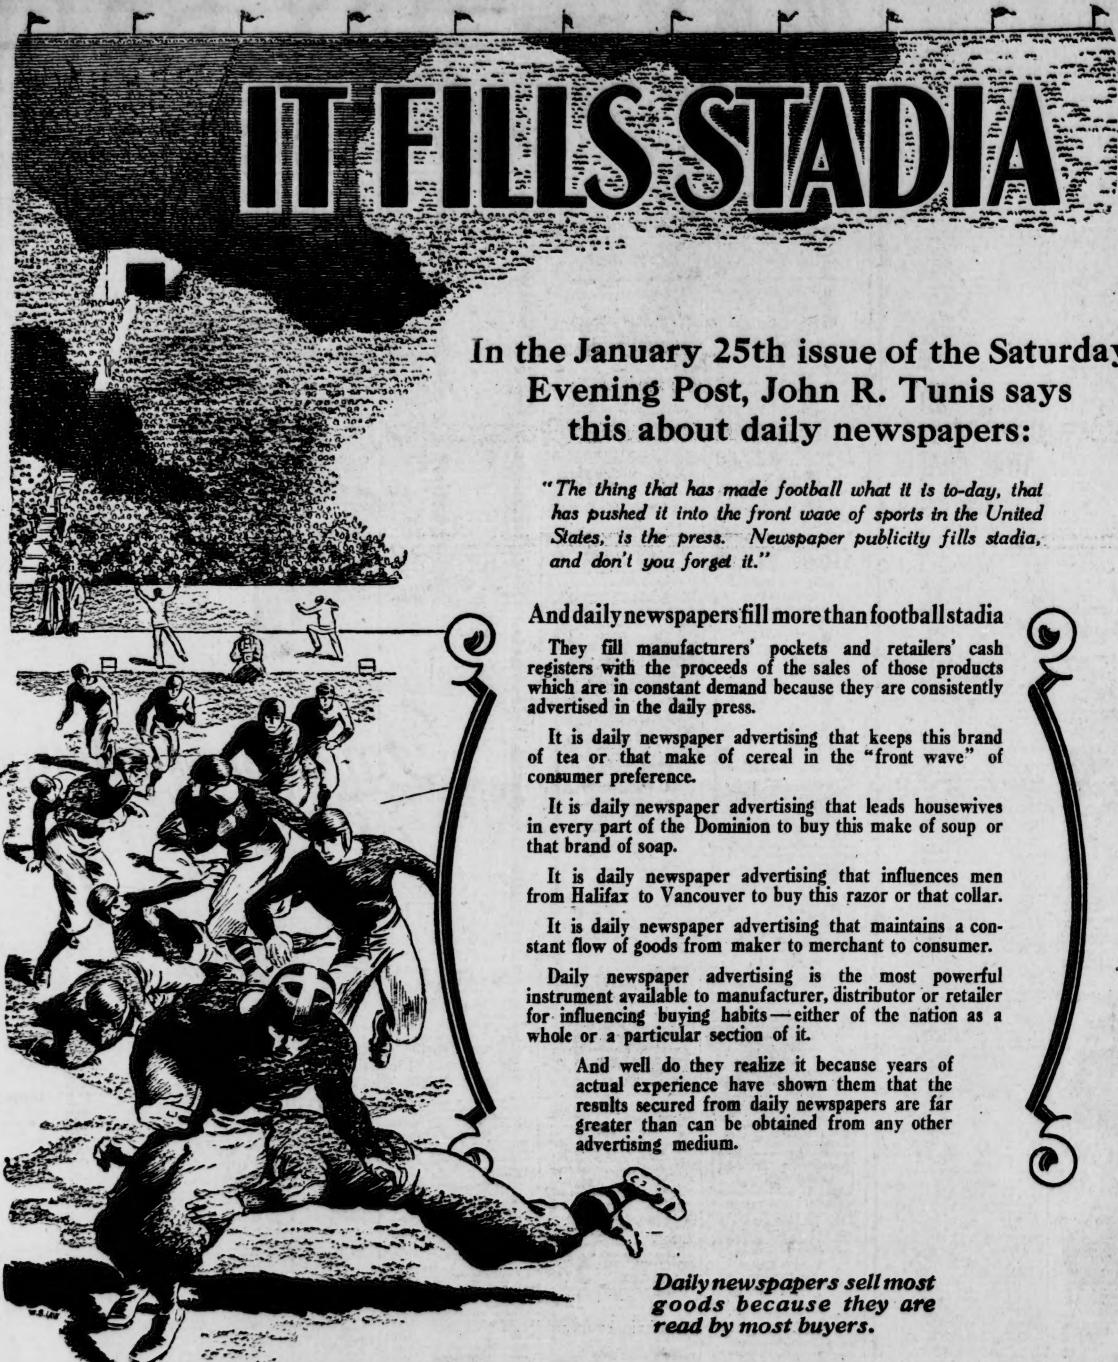

"An excellent boy, but a desultory student. He is not a good student in school, but brilliant outside school but indifferently in school."

"An excellent boy, but a desultory student. He reads voraciously. He reads everything he can lay his hands on. His thirst for tall tales of adventure and romance is unquenchable. He does not type. But he has real imagination. He has bought five typewriters, and he uses them as I would read the latest detective stories. He is associated with the fruits of his wide but desultory reading. He displays a remarkable ability to remember what he has seen and heard, and to focus and apply the wide range of information he has gathered. He is a good boy, but he does not seem to be interested in his studies."

What is the fault? What is the trouble? Academic distinction at Trinity College, Dublin, not being able to pass the examination in Latin, the student that did achieve distinction, three years ago, was not even then a member of the class of 1926. He was never at any time of the academic cast. The boy is not a good student in school, but brilliant outside school but indifferently in school."

What is the fault? What is the trouble? Academic distinction at Trinity College, Dublin, not being able to pass the examination in Latin, the student that did achieve distinction, three years ago, was not even then a member of the class of 1926. He was never at any time of the academic cast. The boy is not a good student in school, but brilliant outside school but indifferently in school."

What is the fault? What is the trouble?

In the January 25th issue of the Saturday Evening Post, John R. Tunis says this about daily newspapers:

"The thing that has made football what it is to-day, that has pushed it into the front wave of sports in the United States, is the press. Newspaper publicity fills stadia, and don't you forget it."

And daily newspapers fill more than football stadia

They fill manufacturers' pockets and retailers' cash registers with the proceeds of the sales of those products which are in constant demand because they are consistently advertised in the daily press.

It is daily newspaper advertising that keeps this brand of tea or that make of cereal in the "front wave" of consumer preference.

It is daily newspaper advertising that leads housewives in every part of the Dominion to buy this make of soup or that brand of soap.

It is daily newspaper advertising that influences men from Halifax to Vancouver to buy this razor or that collar.

It is daily newspaper advertising that maintains a constant flow of goods from maker to merchant to consumer.

Daily newspaper advertising is the most powerful instrument available to manufacturer, distributor or retailer for influencing buying habits—either of the nation as a whole or a particular section of it.

And well do they realize it because years of actual experience have shown them that the results secured from daily newspapers are far greater than can be obtained from any other advertising medium.

Daily newspapers sell most goods because they are read by most buyers.

Riders of Night Skies : Talented Dancer : Wins 133-Mile Dash

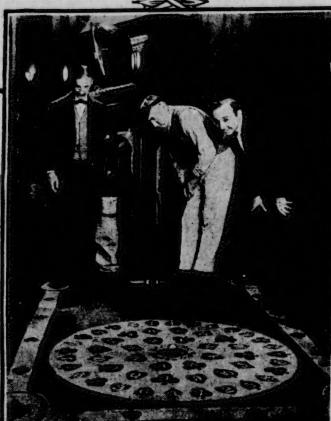

United States army air corps bombardment planes flying in formation during sham night raid over Sacramento Valley, Calif., recently.

This curious looking machine, that might be anything from an army tank to a grain separator, is, in reality, the very latest in street vacuum cleaners that have just made their debut in New York.

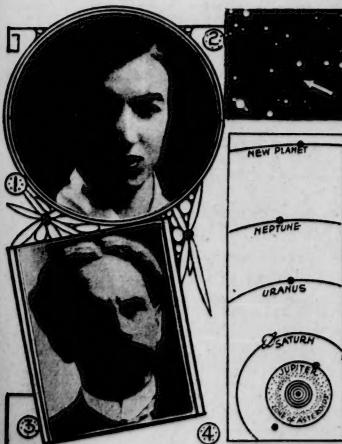

AT RIGHT—Lila Gray, Toronto, clever young toe dancer, whose excellent performances are very popular.

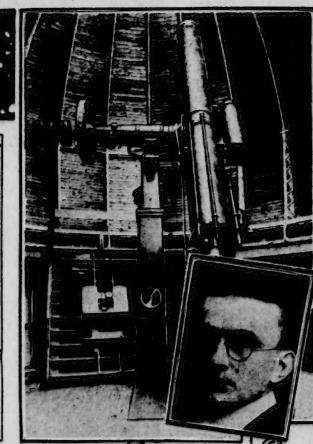

Chas M. Ziegler, St. Louis business man and green beret veteran, returns to dance in a plain chateau left to him by late Adolphe Bonnett, at whose home Ziegler was billeted.

AT LEFT—Mark森森, movie producer and director, is such a confirmed golf "bus" that he just simply can't keep away from the "green", even at work. Here is an innovation of the honorable game

A heavenly drama in which a girl astronomer played a major role had its setting in the Dominion Observatory at Ottawa. Information received from Harvard college observatory led Dominion authorities to believe planet photographed by them in 1924 was new planet and not the planet "X" reported from Lowell, Mass. Study of photographic plates and the discovery of the minute speck by Miss M. S. Burland strengthened supposition. (1) Miss M. S. Burland, young astronomer, who discovered tiny speck of supposed new planet on photographic plate. (2) Diagram of telescope. (3) Miss M. S. Burland, director of Dominion Observatory, under whose direction search for planet was made. (4) Diagram showing position of supposed new planet in universe. (5) The telescope in the dome of the Dominion Observatory. The cylinder to the right is the camera, which took the photograph. A wire attachment to the cylinder revolved it to offset the motion of the earth. (6) Dr. Francis Henrotte, the Belgian-born astronomer of the Dominion Observatory, who took the original photograph, not supposing that he had snapped a planet.

Recent camera study of Capt. Hon. Lancastor Lowther, brother and heir of Earl of Lonsdale, known as Britain's "Sporting Peer."

Impressive incident in official opening of new private patients' pavilion of the Toronto General Hospital. Architect Pearson (Left) is here seen about to hand the key to the new hospital addition to His Honor W. D. Ross, who officially opened the building. Premier Howard Ferguson and C. S. Blackwell of the hospital trustee board are shown in the photograph.

Hart A. Massey fellowships have been awarded by the American University, to two fourth-year University of Toronto students: Howe H. Martyn (Left) in philosophy honors at Victoria College, who is the son of H. G. Martyn, vice-principal of the Stratford Normal school, and John T. Wilson (right), in physics and astrophysics honours at Trinity College, who is son of J. A. Wilson, director of civil aviation, Ottawa.

Eight winners in model aircraft flying contest, Toronto: (1) Wm. Campbell, (2) Joe Purvis, winner of two cups, a trip to Detroit and an hour flight; (3) Allan Jackson, (4) Fred Sheridan, (5) Arnold Rose, (6) Archie Skilton, (7) Gordon Lantes.

WHEAT CLOSE SOME LOWER; EXPORTS UP

Heavy Offering Brings Market Slowly Lower At Winnipeg

Canadian Press

WINNIPEG, May 5.—Wheat prices were lower yesterday morning today in the face of conflicting news of heavy wheat exports and reports of a greatly improved export trade from North America last week, but the market was still influenced by rains in both Canadian and United States wheat-growing areas over the weekend.

There was no attempt to limit wheat offerings, however, which brought the market slowly lower.

Imports of 1,389,000 bushels last week, 17,500,000 bushels in April, and wheat prices held firm or slightly better than last week demand and calls grain eased off.

EATON'S STORE NEWS

A PAINT EVENT

EATON'S

First Gun in the "Brighten the Home" Campaign

It is an Eaton custom to present a Big Springtime Offering of Paints, Varnish, Stains and so forth—at prices that make it sheer economy to fix up the place. It's no very great feat of skill to paint the verandah, or the inside woodwork for that matter, and it is certainly surprising in results. Come Tuesday and stock up with your Spring requirements at these exceptional prices.

4-Hour White Enamel

Ideal for doing over old furniture, walls and woodwork
Dries hard in four hours without showing brush marks. Per quart \$89c

Set of Three Brushes at 69c

THIS set consists of three brushes. One-half inch, one inch, and one three-inch brush.
These brushes are made especially for applying paint and varnish. They are composed of bristles set in rubber. Per set, 69c.

Half Gallon Turpentine

ALWAYS plenty of uses around a home for pure spirits of turpentine—thinning paints or enamels, for instance—or taking the stains off floors. This is put in handy half-gallon containers.

Fur Coat Sale—New Season Styles—New Summer Prices

Muskat and French Seal Self Trimmed or with Other Beautiful Furs

A sale that offers every advantage to the purchaser. Planned late enough to assure next season's styles—early enough to profit by the factory's off-season prices. Every coat made to our order of well-selected skins—some are fashioned on the new flared lines.

Free Storage Is Offered On Every Wrap Until Next Season

Silver Muskrat Coats

Coats of silver muskrat—full-furred lustrous peltries. Smart styles greatly under-priced. Sizes, 14 to 20. Each,

\$78.00

French Seal (Dyed Coney) Coats

Luxuriously styled with a face-framing shawl collar and wide cuffs. Sizes, 36 to 44. Each,

\$89.00

Squirrel Trimmed Coats

Very lavish coats of glossy French seal (dyed Coney) contrasted by a wide cap collar and novelty cuffs of platinum and brown squirrel. Sizes, 34 to 42. Each,

\$125.00

Dark Muskrat Coats

Coats of rich, glossy, first-choice skins, wearing the new cape collar and deep musketeer cuffs. Sizes, 34 to 44. Each,

\$159.00

DEFERRED PAYMENT TERMS are available at an equitable extra charge on all Women's Fur Coats priced at \$100.00 and over, and on Muskrat and Electric Seal Coats priced at \$95.00 and over.

Men's Summer Underwear

Watson Combinations

MADE of fine bleached non-irritating cotton yarns in comfortable fitting spring rib.

Short sleeve and snake length style with full fitting seat, closed crotch and double flat locked seams.

Sizes, 34 to 46. Price \$1.50

Men's Balbriggan Combinations

Men's easy fitting combinations knit from ceru colored cotton yarns are of light weight, comfortable stretch knitted fabric. They are fastened with full button front in three styles—short sleeve length, short sleeve long leg, and long sleeve long leg.

Sizes 34 to 44.
